yixiao.zhang@qmul.ac.uk

## Education

---

|   |   |
|---|---|
| <b>Queen Mary University of London</b><br>PhD in Artificial Intelligence and Music                        | Sep 2020 – Present (Exp. Nov 2024)<br><i>London, the United Kingdom</i> |
| <b>University of Electronic Science and Technology of China</b><br>BEng. in Computer Science, GPA: 3.74/4 | Sep 2015 – Jun 2019<br><i>Chengdu, Sichuan, China</i>                   |

## Research Experience

---

|   |  |
|---|--|
| <b>Centre for Digital Music, Queen Mary University of London</b><br>PhD topic: Machine Learning Methods for Artificial Musicality<br>• Supervisors: Prof. Simon Dixon, Dr. Mark Levy (Apple Inc.)<br>• Topic: Controllable music generation with multimodal machine learning methods. | Sep, 2020 – Present<br><i>London, the United Kingdom</i> |
| <b>Music X Lab, New York University Shanghai</b><br>Research Assistant<br>• Supervisor: Dr. Gus Xia<br>• Topic: Interpretable and controllable music generation via representation learning methods.  | Sep, 2019 – Aug, 2020<br><i>Shanghai, China</i>          |

## Internships

---

|   |  |
|---|--|
| <b>Stability AI</b><br>- Topic: Personalized text-to-music modelling<br>- Mentor: Dr. Jordi Pons and Dr. Julian Parker                              | April, 2024 – Present<br><i>London, UK</i>       |
| <b>Sony Research</b><br>- Topic: Zero-Shot Text-to-Music Editing via Diffusion Models.<br>- Mentor: Yukara Ikemiya                                  | Oct, 2023 – Apr 2024<br><i>Tokyo, Japan</i>      |
| <b>Yamaha Corporation</b><br>- Topic: Large language models for controllable music generation and iterative editing.<br>- Mentor: Dr. Akira Maezawa | Jun, 2023 – Sep, 2023<br><i>Hamamatsu, Japan</i> |
| <b>Microsoft Research Asia</b><br>- Topic: Theoretical study of reinforcement learning algorithms.<br>- Mentor: Dr. Weiqing Liu and Dr. Xiao Yang   | Oct, 2018 – Jun, 2019<br><i>Beijing, China</i>   |

## Selected Publications

---

|  |                |
|--|----------------|
| <b>1. Unlocking Text-to-Music Editing for Music Language Models via Instruction Tuning</b>             | Preprint       |
| Y. Zhang, Y. Ikemiya, N. Murata, W. Choi, M. Martínez, W. Liao, L. Lin, G. Xia, Y. Mitsufuji, S. Dixon |                |
| <b>1. MusicMagus: Zero-Shot Text-to-Music Editing via Diffusion Models</b>                             | IJCAI 2024     |
| Y. Zhang, Y. Ikemiya, G. Xia, N. Murata, M. Martínez, W. Liao, Y. Mitsufuji, S. Dixon                  |                |
| <b>2. Loop Copilot: Conducting AI Ensembles for Music Generation and Iterative Editing</b>             | Preprint       |
| Yixiao Zhang, Akira Maezawa, Gus Xia, Kazuhiko Yamamoto, Simon Dixon                                   |                |
| <b>3. Steerable Long-term Music Audio Generation and Editing via Content-based Controls</b>            | IJCAI 2024     |
| Liwei Lin, Gus Xia, Yixiao Zhang, Junyan Jiang   |                |
| <b>4. Content-based Controls For Music Large Language Modeling</b>                                     | ISMIR 2023 LBD |
| Liwei Lin, Gus Xia, Junyan Jiang, Yixiao Zhang   |                |
| <b>5. Interpreting Song Lyrics With An Audio-Informed Pre-Trained Language Model</b>                   | ISMIR 2022     |
| Yixiao Zhang, Junyan Jiang, Gus Xia, Simon Dixon ( <i>Best Paper Award Nomination</i> )                |                |

## Services

---

|  |                |
|--|----------------|
| <b>AES technical committee member</b><br>AES Technical Committee Semantic Audio Analysis | 2023 - Present |
| <b>Reviewer</b><br>for ICASSP 2024, ISMIR 2023-2024, MM 2024, TISMIR journal             |                |
